Instructions For Ordering

State number and quantity of greeting cards wanted.

After Nov. 15th it is advisable to make first, second and third choice on cards, so as to save time if we are out of number wanted.

State position on card where printing is to appear, otherwise experienced judgment will be used. State plainly the style of engraving wanted. (See seven styles above.)

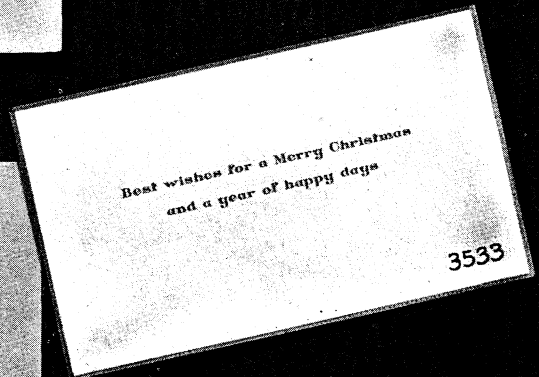

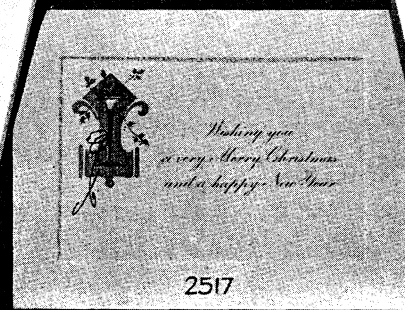

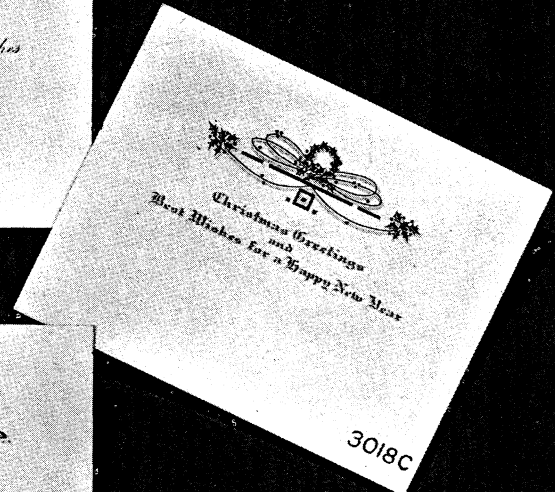

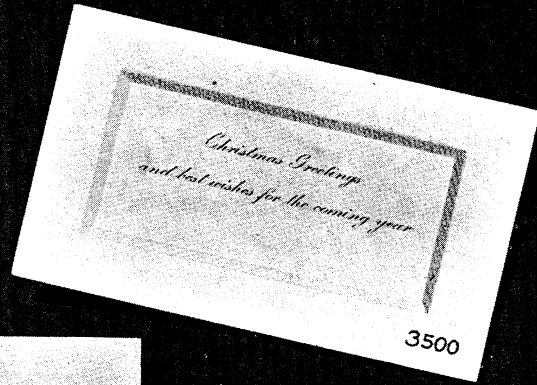

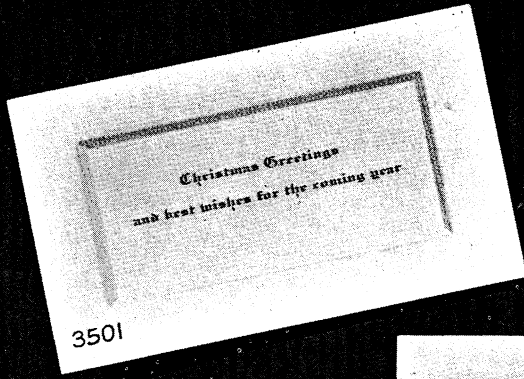

Where engraving or printing is ordered, please either typewrite or print the copy that is to be followed.

Black ink will be used unless otherwise directed. (Special quotations on colored or gold ink.) If you send in your die or plate, say so in your order and mark your name and address plainly on outside of package.

No engraving or printing orders will be started under way without a 50% deposit unless your name is already on our books and in good standing or unless individually well rated in the commercial reference books.

If plates are mailed to us to be used we recommend sending by registered mail, to avoid loss and delay. All orders will be completed promptly and as late as the rush of the season permits. However, we recommend ordering early while our stock is complete and while time permits of the most accurate workmanship.

Waterman's Ideal Fountain Pen

The Pen with  the Spoon Feed
A Universal Christmas Gift

Anybody whose name is on your Christmas List will appreciate a Waterman Pen. It is at once recognized as the quality pen. It will last for years and suit any hand. If the gold pen sent doesn't suit the one to use it, it may be exchanged after Christmas. In Xmas boxes upon request.

The unparalleled success of Waterman's Ideal is due not only to its superiority of quality but largely to the extensive assortment of types, styles and sizes. For all the different characters of hand writing, and conditions in connection therewith, there is a Waterman's Ideal for each kind and requirement, and on all our full guarantee is given. The patented spoon feed is the important feature that absolutely controls the supply of ink. Excel in quality of workmanship and materials used. Pens are 14 kt. gold and tipped with selected iridium, the hardest known metal, for everlasting use. Pen points made to suit every writer. The action of any steel pen can be matched. In a great variety of styles and sizes, some of which are illustrated below.

"Horder's Special" Fountain Pens

Quick
Filling

Lifetime
Service

\$1.80 Each with clip

This is a lever self-filling fountain pen of the very latest type, but all the conveniences of easy filling, self-cleaning, safety screw cap and other features would be useless if the pen did not write right. "Horder's Special" has the heaviest, most carefully made and best action gold pens of any fountain pen we have ever known to sell for less than \$2.75. That is why we are willing to put our name on it. There are fine, medium, coarse and stub points. Made of strong, pure rubber, highly polished and chased. Safety clip attached to cap. Comfortable tapering shape holder. For both men's and women's use. Medium points sent unless otherwise ordered. Guaranteed.

"Horder's Special" Regular Type Fountain Pen

Without self-filling device—otherwise the equal of the above fountain pen. Each \$1.25.

EVERSHARP

The Perfect Ever Pointed Pencil A GIFT THAT WILL BE USED

The "EVERSHARP" is a practical pencil. It is strong and durable. Made with silversmith's perfection and finish. One "EVERSHARP" will last a user for many years of service. No matter how long or how much it is used, it will never have to be sharpened. The point is always sharp. A slight turn of the flange end instantly replaces a worn down point. The "EVERSHARP" is a magazine pencil, i.e., with 18 inches of extra lead inside the holder. The lead is the finest compressed drafting grade. Avoid pencils with thick points and clumsy leads—they are seldom useful. Note tapered end and sharp point.

Extra leads in all pencils when sold. All pencils except Corona Silver are equipped with hidden eraser. All long pencils have clips attached, as illustrated.
